

ADVICE:

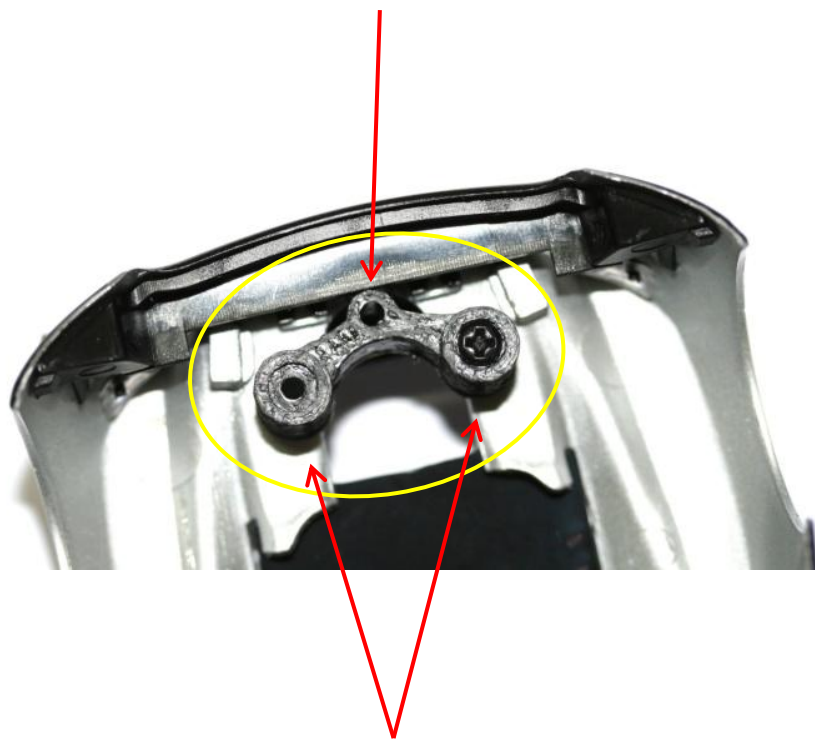

Remember that all plastics are subject to expansion and contraction and in some cases is probable to require a slight adjustment. Handle with care and attention the support as it can break.

Always use the special screws for body reference SP159901 or SP159902 to 7 mm or 9,5 mm long or alternatively, metric screws M2,1 maximum. **NEVER** use thread screws for metal or wood

READ CAREFULLY

Here we **ONLY** use screws M2,1 Sloting Plus ref. SP159901 0 SP159902

You can also use the screws of other brands but **ALWAYS** with metric thread of 2,1 mm maximum.

Here you can use the standard screws included in the model.
